FOREWORD BY THE MAYOR

Service Delivery and Budget Implementation Plan (SDBIP) is a strategic financial management and implementation tool to ensure that the budgetary decisions are aligned with IDP. It serves as a contract between the Council, administration and the Mhlontlo community. This document further strives to critically evaluate the ability and capacity of the Municipality to ensure the realisation of the 2017/18 financial year plan.

Mhlontlo local municipality has intent to fully dissect the environment in which it operates, in order to understand the prevailing challenges and have remedial actions taken. As it is the time to review the five year IDP, it has become so critical that the municipality does not try to have fundamental changes on the community priorities. Had it been the case, there would be some priorities that could not be fully implemented. It is within the legislative framework that the municipality should focus on simple, measurable, achievable, realistic and time-bounded objectives; hence no fundamental changes on the **Strategic Planning document, IDP and SDBIP**.

It is still relevant to admit that Mhlontlo local municipality is faced with many service delivery challenges that directly emanate from the fact that it has limited sources of revenue generation. That alone heavily contributes to the scourge of unemployment as identified to be one of the national “*triple challenges*”. Despite the afore said challenge, it is acknowledged that the community mostly comprises of the indigent people who rely more on social grants and have less number contributing to the municipal revenue. However, the municipality is committed to reasonable spend the allocations according to the identified priorities. This means proper planning with proper implementation that is accompanied by monitoring and evaluation system.

Also worth recognising when presenting this tool is the role played by the community in the development of the Integrated Development Plan (IDP) of the municipality as a bottom up approach, that is, community involvement as stated in chapter 4 of the *Local Government: Municipal Systems Act 32, 2000*.

To conclude, it would be a mistake not to extend a word of appreciation to the administration of the municipality for the unwavering support given to the politicians and communities during the period of reviewing IDP and Budget. It was really a process that required dedication and undaunted hearts to accommodate citizenry in quest of development. It is obvious that without cohesion in the collective of the principal committee of the municipality- Executive Committee, and the whole crew of the politicians, it would have been impossible to reach the destination.

Cllr N. Dywili

(Mayor-Mhlontlo LM)

Date

EXECUTIVE SUMMARY

The Mhlontlo Local Municipality in compliance with circular 13 of the MFMA Act 56 of 2003 is required to produce a Service Delivery and Budget Implementation Plan to show the following:

- Monthly projections of revenue and expenditure for the operation and capital budgets
- Quarterly service delivery targets and performance indicators.

Each month the Municipal Manager must present the Mayor with a report showing how income and spending is progressing against these projections. Every quarter the Mayor must report to the Council on the progress of the budget.

SERVICE DELIVERY TARGETS AND PERFORMANCE INDICATORS

The municipality, starting from the review of its Strategic planning document had a series of meetings that were mandated to have clear objectives, targets and performance indicators developed. The IDP and SDBIP for the financial year in question reflect as such. Directorates are therefore expected to give an account of their performance on quarterly basis, and finally have end of the year report reflecting expenditure trends according to the SDBIP.

It is mandatory that performance contracts for the municipal manager and heads of departments (section 54 and 56 Managers) are reflective of the targets for purposes of measurability. It is imperative that these targets are adhered to and only tampered with upon receiving a Council resolution.

THE COMPONENTS OF SDBIP

The SDBIP is comprised of five components which are as follows:

1. Monthly projections of revenue to be collected for each source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Ward information for expenditure and service delivery
5. Capital works plans

The SDBIP provides vital link between the mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the Mayor, Councillors, Municipal Manager, Senior Managers and the community to know the direction that the municipality takes in delivering services to the clientele.

THE SDBIP PROCESS IN MHLONTLO

The production of the SDBIP has been co-ordinated between the Budget and Treasury Office and Strategic Management directorates and without disregard of the role played by others. The detailed monthly budget estimates and the quarterly performance indicators are contained in the actual departmental expectations.

OPERATING EXPENDITURE

The annual operating expenditure has been broken down into monthly projections by applying the trends of the previous year's spending to each line item in the budget. The projections are shown by each directorate and by expenditure type. The following should be taken into account:

- There is a risk of building into the plan undesirable trends. For example, the graph below shows the high level of spending anticipated in the financial year.
- There may have been extraordinary events in the past years that have skewed the trends. The financial year under review may not have the same trends although they are in the SDBIP.
- The estimates are based on percentage spending per month and do not take into account any over or under spending on particular items.

The operating expenditure budget for 2017/2018 is R 211 212 619.62

OPEX BUDGET

■ Employee Costs ■ Councillor Remuneration ■ General Expenses ■ Repairs & Maintenance

EXPENDITURE

The following graph indicates how Mhlontlo Local Municipality is expected to have its budget spent over the twelve months of 2017/2018 financial year.

TOTAL EXPENDITURE	281 432 619.60	254 838 331.62	
DEFICIT	10 423 951.34	-1 359 734.68	

DEPARTMENTAL BUDGETS

INCOME

Again, the previous year trends have been used to provide the estimates for 2017/2018 and the previous comments on the shortcomings in this methodology apply to revenue as well. The information is shown by department and national standard for showing revenue source. The estimates are based on budgeted income rather than cash collected. The income budget for 2017/2018 is R 256 198 066.30
